Dear Mr. Faultry,

Thank you so much for your help. Here's the document I mentioned, with some interesting history.

Merry Christmas

Curtis

Carlos, this is the IC/ Deed Restriction that was recorded to Don William's specification. Don has said that the owner does not need to make any changes or additions, unless it is to redefine the area to a smaller area based upon what you say was actually involved in the remediation. Please advise.

Don, copy for your file.

Could you please summarize what next steps will be taken to partially delist Arkwood, now that this is done? And what needs to happen before full deletion from NPL?

You mentioned a visit by EPA geologist to site to evaluate water situation, perhaps in October? Any detail on this?

Can I do anything myself to help move site into Ready for Reuse pipeline, in tandem with your efforts? Do you have a contact in that program (or other applicable contacts/programs)?

Thanks,

9459568

Curt
